PROFILE

A highly motivated and adaptable Bachelor of Computer Applications (BCA) graduate with a strong foundation in Cybersecurity, Ethical Hacking, IT support, and digital technologies, supported by hands-on internship experience and professional exposure across operations, administration, customer service, digital marketing, and client relationship management. Skilled in network security fundamentals, vulnerability assessment, Python programming, problem-solving, process coordination, and effective communication. Recognized for a strong work ethic, leadership, adaptability, and the ability to learn new technologies quickly while delivering results in fast-paced environments. Passionate about continuous professional development and committed to contributing analytical thinking, technical expertise, operational efficiency, and collaborative teamwork to drive organizational success across both IT and non-IT industries.
